581-022-2340 Explanation	We have an instruction assistant assigned to each of our two library/media centers in the district. These programs are not overseen by licensed/certificated personnel.
581-022-2340 Corrective Action Plan	We will continue with the current plans and staffing in place that are both overseen by building administrators. If such time that dollars become available within the district budget to place certificated personnel in those programs we will do so. We are also investigating options within our region to potentially purchase either from our ESD or another district a portion of a certificated staff to oversee these programs.
